

MicroBooNE Detector Assembly and Experiment Update

All Experimenters Meeting

April 1st, 2013

Ryan A. Grosso
University of Cincinnati
On behalf of the MicroBooNE Collaboration

MicroBooNE (E-974)

- Liquid Argon Time Projection Chamber (LAr TPC)
 - 170 tons LAr (~84t active)
 - Located in Booster Neutrino Beamline (BNB)

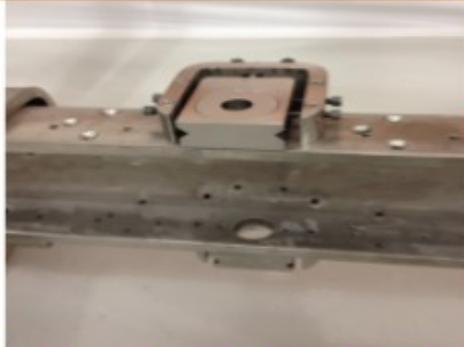

Last Report (Fall '12)

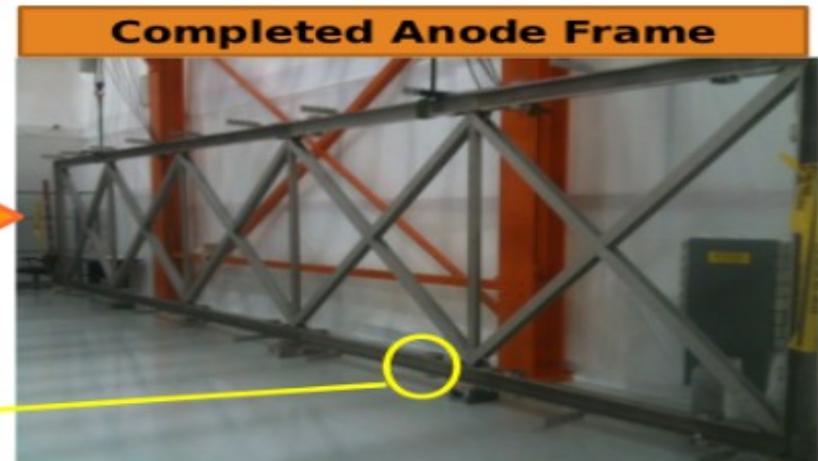

Assembly Activity at DØ Assembly Building

Attaching the adjusting assemblies for the wire tensioning

09/10/12

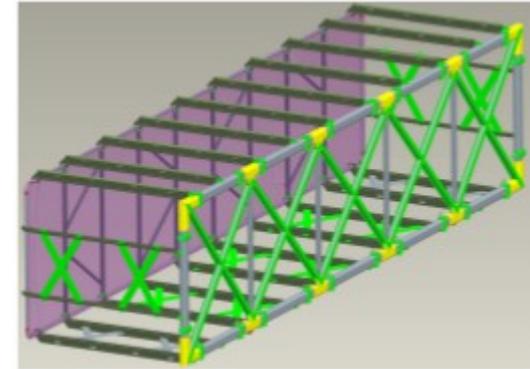

Completed Anode Frame

11

Where We Are Now

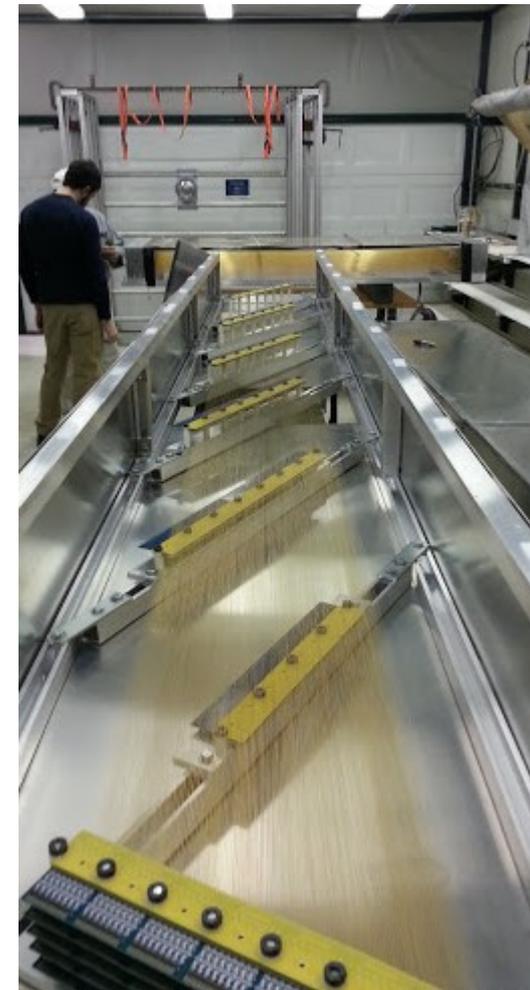

- TPC Structure Complete ★
 - Many hours of work from undergraduates, grad-students, post-docs, scientists, and technicians.
 - SPECIAL THANKS: Jen Raaf & John Voirin

From the back of the tent

Front view

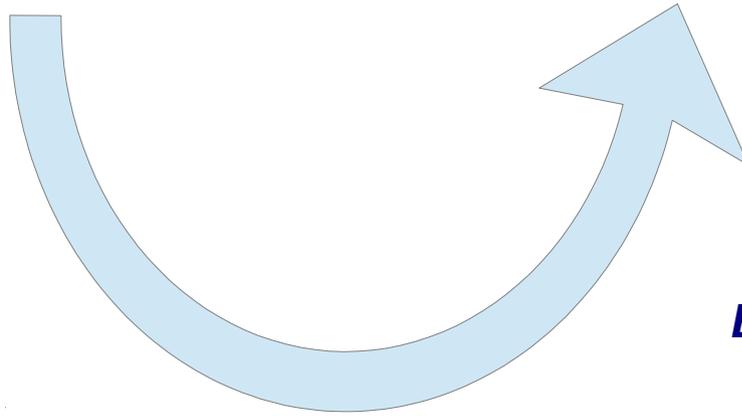

- All signal wires (8000+) are at FNAL
- Ready to be installed & tensioned 😊

CRYOSTAT

- Arrived at FNAL
- March 8th
- Level one milestone ★
- Thanks to Sue Duffin (BNL)

BEST BIRTHDAY GIFT EVER!!!

Tech Team

- With out our stellar technicians none of this would be possible. THANK YOU ALL! ★ ★

Bryan Johnson, Tom Olszanowski, Mark Shoun, John Voirin, John Cornele

* Not Pictured: Tim Griffin, Andrew Lathrop, Koroush Taheri

Leak Check & Cryostat Cleaning

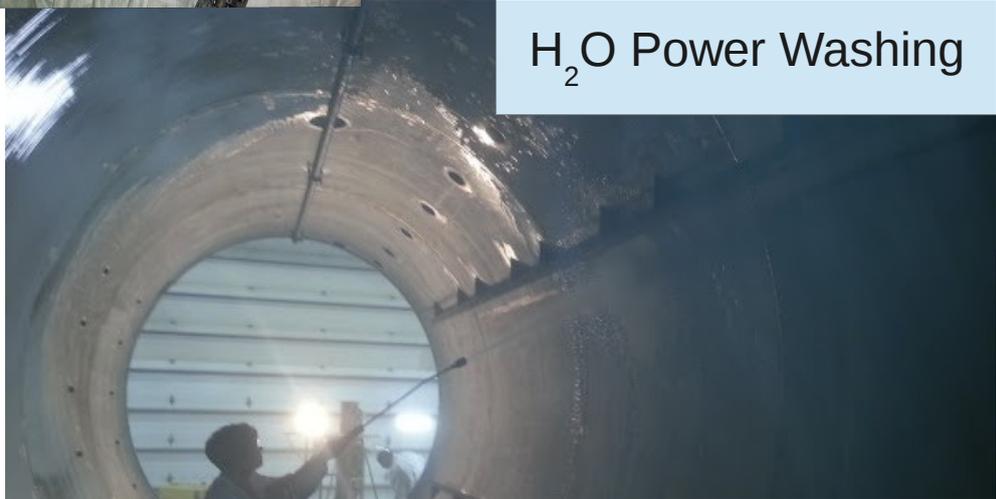

Roberto Acciarri

Thanks to DØ Crew
Pete Simon et al.

Leak Check

H₂O Power Washing

Wash 1: Rinse
Wash 2: Simple Green
Wash 3: Rinse
Wash 4: Simple Green
Wash 5: Rinse

All Clean!

PMT System

PMT mount with acrylic plate for wavelength shifter

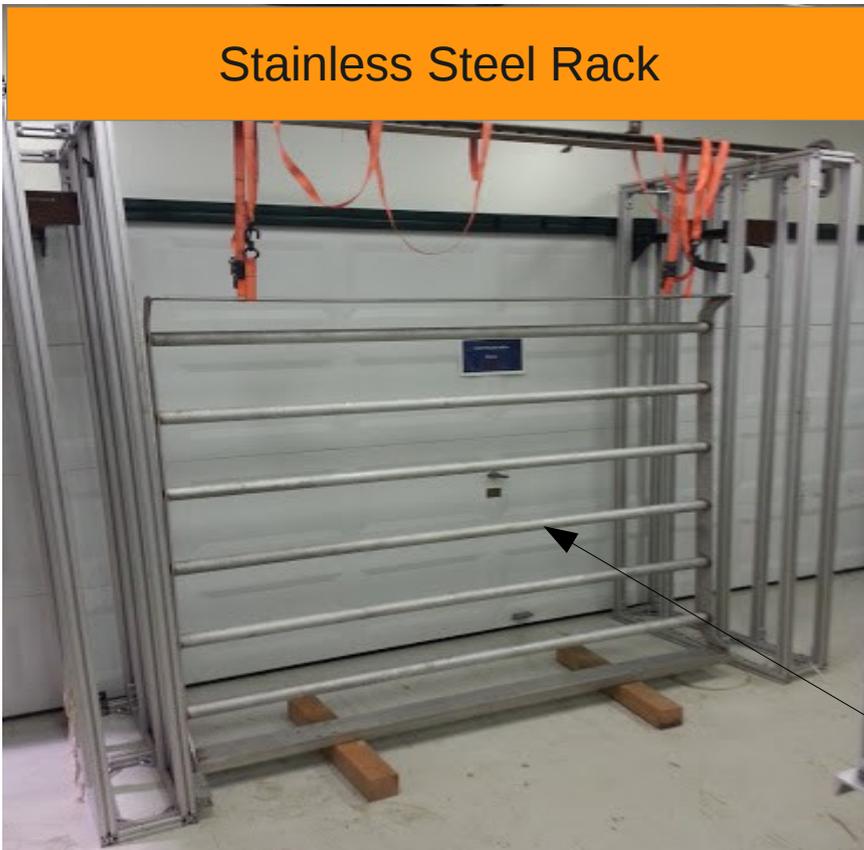

*Special Thanks to Eric James

PMT mounts look great!

Stainless Steel Rack

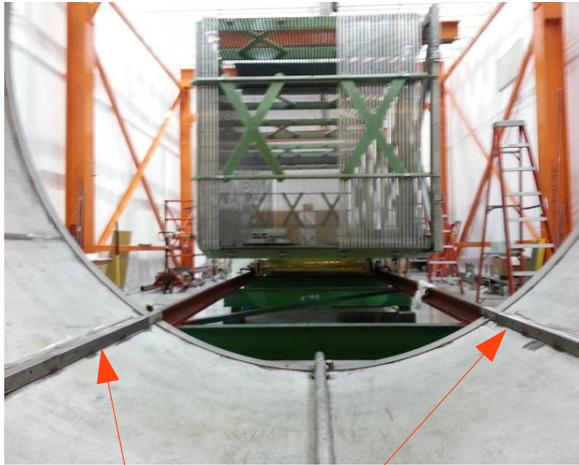

Support Rails in Cryostat

PMT racks will be at FNAL within the week!

Test Fit of TPC & PMT

TPC cart: Load ~12,000 lbs

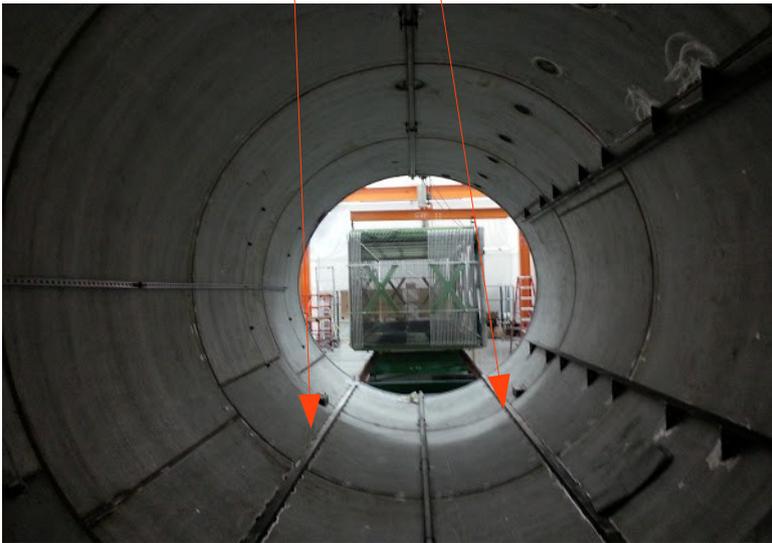

TPC Rails

TPC Test Fit Tomorrow

PMT Test Fit April 8th

Thompson Linear Bearing

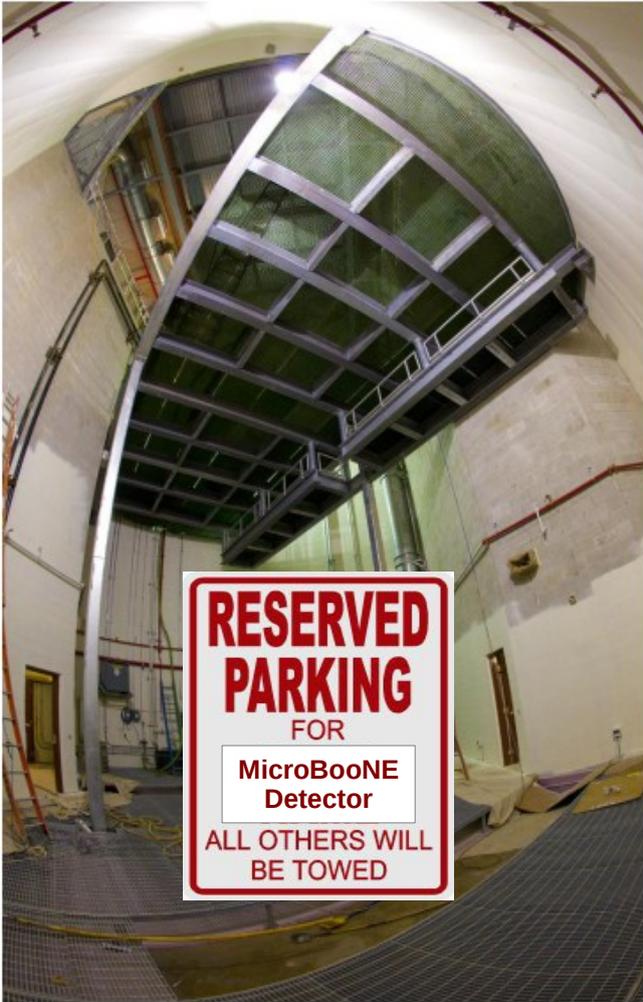

LArTF

Dixon Bogert

Almost There
Beneficial Occupancy by mid-April

Electrical conduit installed

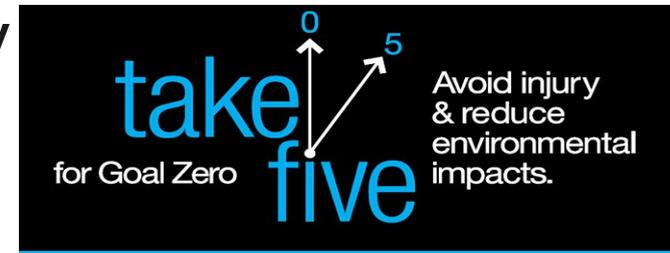

Removable Roof

Upcoming Work

- Lots of activity thus far and more to go
 - MicroBooNE is committed to safety

No injuries!

- Many thanks to all the undergraduates, grad-students, post-docs, scientists, and technicians who have contributed!
- Keep an eye out for exciting update from MicroBooNE in the weeks to come.
